About Me

Computer Science graduate from Universitas Djuanda with expertise in full-stack web development using Laravel, ReactJS, and MySQL. Experienced in building integrated academic information systems and HRIS, including automated attendance (Face Recognition) and payroll management. Focused on developing efficient, scalable, and maintainable software solutions.

Technical Skills

- **Programming Languages:** JavaScript (ES6+), TypeScript, PHP, Python, SQL, C++.
- **Frontend Development:** ReactJS, Vite, Tailwind CSS, HTML5, CSS3.
- **Backend Development:** Laravel, RESTful API Development.
- **Databases:** MySQL.
- **Tools & Others:** Git/GitHub, VS Code, Google Colab, Figma

Soft Skills

- Management
- Problem solving
- Communication
- Leadership

Key Projects

- **Academic & Laboratory Information System (Thesis)**
 - Developed an integrated system for managing academic administration, laboratories, and inventory.
 - Implemented features for academic fee payments and real-time room/equipment booking systems.
 - Tech: Laravel, ReactJS, MySQL, Tailwind CSS.
- **Sistem Informasi Kepegawaian (HRIS) - SMK Kesehatan Moestopo**
 - Built an automated attendance system using Face Recognition and Barcode Scanner integration.
 - Developed automated payroll and overtime management modules.
 - Tech: PHP (Laravel), JavaScript, MySQL.

Experience

DSIT Djuanda University | IT Support

Feb 2021 – Mar 2021

- Provided technical assistance to administrative staff, ensuring smooth operational workflows.
- Managed and organized critical institutional documentation, contributing to better data retrieval and administrative efficiency.
- Assisted in maintaining office systems and troubleshooting basic IT issues for staff.

Bogor City Education Office | ITSupport / Data Entry Operator

July 2024 – Sept 2024

- Executed high-volume data entry tasks with high accuracy, ensuring reliable information for educational administrative records.
- Provided IT technical support for office equipment, minimizing downtime for daily administrative tasks.
- Streamlined data handling processes to improve the accessibility of educational database records.

IIMI Image Management Pvt. Ltd. | Data Entry Operator

Maret 2025 – Okt 2025

- Perform daily data entry and processing with a focus on high-quality standards.
- Conduct systematic quality control (QC) on large datasets to ensure data integrity and accuracy.
- Collaborate within a professional environment to meet tight production deadlines.

Education

Universitas Djuanda Bogor | Computer Science

2022 – 2026

Relevant Coursework: Data Structures, Web-Based Programming, Database Systems, Machine Learning.

SMK Amaliah Bogor | Computer and Network Engineering (TKJ)

2019 – 2022

Established a solid foundation in network administration, hardware troubleshooting, and operating system installation.

Tentang Saya

Lulusan Ilmu Komputer Universitas Djuanda dengan keahlian dalam pengembangan aplikasi web full-stack menggunakan Laravel, ReactJS, dan MySQL. Berpengalaman dalam membangun sistem informasi akademik terintegrasi serta Sistem Informasi Kepegawaian (HRIS) yang mencakup fitur absensi otomatis berbasis Face Recognition dan pengelolaan penggajian. Berkomitmen untuk mengembangkan solusi perangkat lunak yang efisien, scalable, dan berorientasi pada kebutuhan pengguna.

Keahlian Teknis

- **Bahasa Pemrograman:** JavaScript (ES6+), TypeScript, PHP, Python, SQL, C++.
- **Frontend Development:** ReactJS, Vite, Tailwind CSS, HTML5, CSS3.
- **Backend Development:** Laravel, RESTful API Development.
- **Databases:** MySQL.
- **Tools & Lainnya:** Git/GitHub, VS Code, Google Colab, Figma

Soft Skills

- Manajemen
- Pemecahan Masalah
- Komunikasi
- Kepemimpinan

Proyek Utama

- **Sistem Informasi Akademik dan Laboratorium (Skripsi)**
 - Mengembangkan sistem terintegrasi untuk pengelolaan administrasi akademik, laboratorium, dan inventaris.
 - Mengimplementasikan fitur pembayaran biaya akademik serta sistem pemesanan ruangan dan peralatan secara real-time.
 - Teknologi: Laravel, ReactJS, MySQL, Tailwind CSS.
- **Sistem Informasi Kepegawaian (HRIS) – SMK Kesehatan Moestopo**
 - Membangun sistem absensi otomatis menggunakan teknologi Face Recognition dan integrasi Barcode Scanner.
 - Mengembangkan modul penggajian dan pengelolaan lembur secara otomatis.
 - **Teknologi:** Laravel, JavaScript, MySQL.

Pengalaman Kerja

DSIT Djuanda University | IT Support

Feb 2021 – Mar 2021

- Memberikan dukungan teknis kepada staf administrasi untuk memastikan kelancaran operasional.
- Mengelola dan mengorganisasi dokumen institusi sehingga meningkatkan efisiensi administrasi dan kemudahan akses data.
- Membantu pemeliharaan sistem perkantoran dan menangani permasalahan teknis dasar.

Bogor City Education Office | ITSupport / Data Entry Operator

Juli 2024 – Sept 2024

- Melakukan input data dalam jumlah besar dengan tingkat akurasi tinggi untuk mendukung administrasi pendidikan.
- Memberikan dukungan teknis terhadap perangkat dan sistem kantor guna meminimalkan gangguan operasional.
- Mengoptimalkan proses pengelolaan data sehingga meningkatkan aksesibilitas basis data pendidikan.

IIMI Image Management Pvt. Ltd. | Data Entry Operator

Maret 2025 – Okt 2025

- Melakukan proses input dan pengolahan data harian dengan standar kualitas yang tinggi.
- Melaksanakan Quality Control (QC) secara sistematis pada dataset berskala besar untuk memastikan integritas dan akurasi data.
- Bekerja sama dalam lingkungan profesional untuk memenuhi target dan tenggat waktu produksi.

Pendidikan

Universitas Djuanda Bogor | S1 Ilmu Komputer

2022 – 2026

Mata Kuliah Relevan: Struktur Data, Pemrograman Berbasis Web, Basis Data, Machine Learning.

SMK Amaliah Bogor | Teknik Komputer dan Jaringan (TKJ)

2019 – 2022

Mempelajari administrasi jaringan computer, Troubleshooting perangkat keras (hardware), Instalasi dan konfigurasi sistem operasi.
